

Survey Questions

Classroom Survey (5-7 year olds)

Evaluation: Evaluation Lab

1. For the first two questions, identify three spaces in the classroom which represent 'Yes', 'No' and 'Not sure'. Once you have pointed out the spaces to the children, you will first ask them to close their eyes and decide what their answer is, and then let them move to the space which represents their answer once they have decided. Once there, please count the number of children in each space. There are two questions like this, and you will also then ask each group some follow on questions so ensure they don't go back to their seats immediately!

 Message

2. Here's the first question: Some children would like to do the activities again and some wouldn't - both are fine. Would you like to do it again?

 Message

3. How many children are in the 'Yes' space?

Please enter a whole number

10. Whilst the children are still stood in groups, ask each group to shout out their answers to the following questions and write down what you hear. Feel free to write it down on paper and come back to enter into the survey later if that is easier. Please try to also note one thing from a child who isn't as loud as the others.

 Message

11. What was the best thing about the activities?

Write down some things you hear which you think are the most interesting or the most often being shouted.

 Free Text

12. Is there anything that could have been better?

Write down some things you hear which you think are the most interesting or the most often being shouted.

 Free Text

13. That is the end of questions for the children. The remaining questions are for the teacher. Please thank the children for taking part!

 Message

14. TEACHER ONLY: Based on your observations of the students today, and compared to their usual behaviour, how big of an impact did you think it had?

Think about whether students who were usually quiet or disengaged were more involved, or if they worked together in a good way, or if they found it different to things they'd done before. Try to give specific examples.

 Free Text

15. TEACHER ONLY: If there's anything else you'd like to tell us, good or bad, we're keen to hear your thoughts.

Enter your answer
